My Toy is Alive

If I found a Time Machine

3A Michael Wong

When I got on the time machine, I went to the past. I went to the Jurassic world.

First, when I was in the Jurassic world, I saw a big T-Rex in front me. It has strong arms, strong legs and a strong tail. There were a lot of trees and lakes near them. I was scared of the giant dinosaur, so I ran away quickly.

Next, I saw a Giganotosaurus near me. Then, I saw a giant lizard which was almost one meter long. I walked closer. Then I saw some eggs! Suddenly, the lizard bit my hand, I felt hurt so I ran away.

Then, I went to the lake and drink some water. When I was leaving, I saw a Troodon at the grass. I walk closer and closer and I saw eggs! When the Troodon left, I stole four of his eggs and back to the time machine as quick as a flash.

Luckily, the time machine didn't broke so I went back home with the Troodon eggs. However, the Troodon eggs were hatched. The Troodon baby grew bigger and bigger.

My Awesome Robot

4A Ingrid Fong

I have made an awesome invention. It is a robot that can help you do anything and also can turn its body size. And it is made of gold but very light ,it can work twelve hours and must rest twelve hours too. I made this robot because I want to do my homework faster. The robot can help different people do their works and solve their problems. I have made five robots, and I will keep one of the robots for me and give one of the robots to my best friend because she begs me to give her one of the robots as her birthday present , but certainly I won't give any robots to my little sister because she only will try to do a little homework by herself and let the robot do the rest or she will let the robot do all of her homework ,then she won't learn anything at all, and the rest of the robots I will keep it and look for someone who wants to buy them for nine thousand dollars.

The robot is extremely expensive because I came to many problems, in making the robot and needs to use a lot of money to buy components. Therefore I have to sell in higher price.

My Toy is Alive

The Magic Toy

3A Hayden Law

Last night, I played with my favorite toy—Pikachu called Casper. He had two big eyes and along tail. I like it because my exam went well, I like it because it is cute. After I slept, a witch casted a spell on Pikachu. Pikachu woke up. Casper used electricity to shock other things. Casper said ‘Let’s use electricity.’ But he charged the phone. Casper said ‘Okay. Let’s help him do the homework ’He was smart because he could do all the Maths, English and Chinese homework. Then he did the housework. But my mother waked up and my mother saw the Pikachu was moving. And my mother fainted. I saw it and called 999. Then I went to living room, the Pikachu turned into a toy. I thought it was so strange. I didn’t find out the toys were alive.

The Magic Toys

3A Casper Tsang

Last night, I played with my favorite toy – little Hayden. I love it very much because my mum bought it from Ocean Park. It has two small eyes. It has a big nose and two short legs. Then, the witch used the magic to wake the toys up. The toys woke up. Hayden was doing homework but another toy Abby went to play with Hayden.

Then, Abby said, ‘Don’t do the homework, come here and play with me.’ Hayden replied, ‘No, thanks. I need to do homework. Abby says, ‘Ok, I shall wait for you.’ An hour later, Hayden finished the homework. Then, they played together. It was six o’clock now. They turned back into toys. In the morning I found my homework were all finished and I saw Hayden was sitting on my chair.

My Alive Toys

4A Hinson Chan

Last night, my brother and I played our favorite toy Mario. We loved it very much because our father bought it for us as a Christmas present. We were tired so we slept early. When I was asleep, suddenly there was a magic spell, it turned all the Mario toys alive. They saw my homework was not finished so they helped me to do my homework. ‘Let’s help Hinson finish his homework’ said Mario. Everyone agreed so they finished my homework.

In the morning, I found what they did. I felt grateful because I have toys that can help me to do homework. I don’t have to do homework every day!

My Toy is Alive

My Awesome Reminder Watch

4A Hinson Chan

I made an awesome invention. It is a reminder watch. It is made of metal. It can remind anything after you input something. It doesn't need to charge or use any batteries. Just click on the screen then it will switch on! I always forget things so I wanted to make a reminder watch.

My invention can help you to remember some things if you don't remember something. It can tell you where you have to go, what you didn't do, what you have to do at what time, and even more! Maybe everyone will buy it because everyone needs reminding!

I did have some problems while making it though! I didn't put any settings on it so I have to remake it, one time the screw was loose so I have to make it again, but I finished it at last.

The Homework Machine

4A Vicky Tsang

I have made an awesome invention. It is a homework machine. It is made of metal. It can help me do homework. It needs to charge. My idea comes from school because I need to do a lot of homework.

Homework machines can help students do homework. Students might buy it. When I was making it, I had some problems. Homework machine that I made is very big. It is only made of metal so it is very heavy. I want to make it smaller and lighter. I want to make the best homework machine. It is very cheap now. It is only ninety-nine dollars. You can buy it in a shop.

A Secret Door

A Secret Door

3A Michael Wong

Three years ago, I went to a secret room with Hayden. We saw a game of wizard chess in the room. There was a secret door which was black and terrible.

When we press our ears on the door, we fell to Harry Potter's magic world. I found that I became Harry Potter and Hayden became Ron. We went to Hogwarts castle, and we saw Hermione. We ran away and hid behind the wall. Hayden said, 'Hey Harry!' Then, I yelled 'I'm not Harry! I'm Michael!' He asked, 'What do we do?'. I answered, 'I have made a nuclear bomb to kill Voldemort.' Suddenly, we saw Voldemort. I immediately used a spell and said 'Avanka Karadra!' Finally, Voldemort was turned into paper. We won the battle.

Then, Hayden asked me 'How do we get back to our world?' There was a snake appeared and was coming toward us with its opened mouth. We ran as fast as we could. We went through trees and grasses. We ran quickly to the secret door. Unfortunately, we could not open the door. Then we had an idea. We said, 'Come here, silly snake!' The snake got angry. It went as far as it could and it tried to break the door. Before it broke the door, we went inside the door quickly and went back to our world.

The Treasure Island

3A Hayden Law

It is a dark night. Casper and Abby was on a giant island. The island was full of spider webs and a castle. Casper and Abby wanted to find a magical treasure. And then they found a castle that there were monsters and a dinosaur living inside. They needed to protect the castle because their father told them they cannot allow people to destroy the castle. Casper and Abby went to the castle. After that they listened and shouted 'How can a monster and a dinosaur speak? The monster and dinosaur looked at them and said 'If you defeat us, you can get a magic treasure as a reward. Casper and Abby said 'You have magic. Can you give me the magic treasure?' Abby replied 'Ok!' The monster summoned a lot of spiders to bite them. The spiders bite Casper. Then Casper became a spiderman. Casper summoned a lot of spiders to bite the monster and dinosaur. The spider almost bit the monster and bit the dinosaur. Finally, they won them.

A Secret Door

The polite Alien

3A Casper Tsang

Last night, a big UFO landed in China. I saw Aliens behind my house. These Aliens have three green eyes and two short legs. They were scary but they were friendly. They started to say something but I didn't know what was it.

Five minutes later, I try to speak with them in English. They knew what I was saying. They said, 'Who are you?' I answered, 'My name is Casper. Who are you?' The Alien answered, 'My name is Hayden.' I said, 'I took you to the park for playing.' Hayden said, 'Okay.' Then, we went to the park and played hide and seek. We felt tired but we were happy. Finally, the Alien Hayden joined my family. We felt so happy because Hayden could stay at my home forever.

The Pirate

4A Miki Ng

Once upon a time, in a haunted castle, there were many pirates. They wanted to find some treasures.

The pirate went to the deep wood. The pirate felt afraid. Then, the pirate saw some treasure! The pirate said happily 'Oh! There are some treasures!' But the pirate saw a fluffy dog next to treasures. The dog said 'We can have a competition! If you win, these treasures all belong to you!' The pirate said 'Okay!' Then they had a competition of running. The pirate thought the dog ran faster than him. In the end, the pirate won. The pirate felt over the moon! The pirate said 'Ha!Ha! I win! give me the treasures!' The dog said 'Okay' When the pirate opened the treasure chest. There are a lot of gems. The pirate was very happy.

In the end, the pirate said 'Thank you! I am very happy!' Then, the pirate went to his castle.

Biographical Writing

5A Allie Kwok

Born:

She was born on 21st April, 1926

Died:

She died on 8th September, 2022

Occupation(s):

She was a politician and philanthropist

Notable Quote:

When life seems hard, the courageous do not lie down and accept defeat; instead, they are all the more determined to struggle for a better future

She visited China in 1986. She visited Republic of Ireland in 2011. She became Queen in 1952. She passed away in 2022.

Achievements:

Queen Elizabeth II was the longest-reigning monarch in British history.

Biographical Writing

6A Andrew Tse

Born:

He was born on August 23, 1978.

Died:

He died on January 26, 2020, in California.

Occupation(s):

He was a legendary Naismith Basketball Hall of Fame player.

Notable Quote:

"I see the beauty in getting up in the morning and being in pain because I know all the hard work that it took to get to this point. So, I'm not, I'm not sad about retiring. I'm very appreciative of what I've had."

Childhood & Education:

Kobe 'Bean' Bryant was born on August 23, 1978, in Philadelphia, Pennsylvania. His father was Joe Bryant, a former Philadelphia 76ers player. He was pushed by his father from an early age to take up basketball. He started playing basketball at the age of 3, and his favourite team was the Los Angeles Lakers. When Bryant was six, his father left the NBA and moved his family to Rieti in Italy to continue playing professional basketball. Bryant became accustomed to his new lifestyle and learned to speak fluent Italian. During summers, he would come back to the US to play in a basketball summer league.

Key Life Events:

In January 22, 2006, Kobe Bryant scored 81 points over the hapless Toronto Raptors. In this game, Kobe made 7 three-pointers and 18 free throws that led to a come-from-behind victory.

Achievements:

With the Los Angeles Lakers, Bryant is a five-time NBA champion, taking the title in 2000, 2001, 2002, 2009 and 2010. Also, he was twice the NBA's scoring champion (2006, 2007) and even took the North American league's Slam Dunk Contest title in 1997.

6A Angieo Leung

Born:

She was born on 21st April, 1926
in Bruton street No.17

Died:

She died on 8th September, 2022

Occupation(s):

Her occupation was the Queen of the United Kingdom.

Notable Quote:

‘Good memories are our second chance
at happiness.’

Childhood & Education: When she was young, she was taught at home by her mother. During her learning process, she studied different languages. She was excellent in history, music and literature too. On the queen's 18th birthday, her father George VI gave her a corgi. Since then, the queen had been fond of corgi.

Key Life Events:

1. Meeting with leader of China.
 2. Tears at victims of the 911 incident.
 3. Decentralization in the UK and Africa
 4. Unveiled the 2012 London Olympics
- Although the paparazzi makes up story about the queen indifferent. Undoubtedly, she helped the whole of Britain avoid different crises.

Achievements:

During the Queen's reign, she tried to organize the British Commonwealth to maintain the relationship, between Britain and the former dependencies. She has made a lot of contributions. For instance, state visit to numerous countries, including European countries and British colonies. Apparently, he has been doing her best for Britain all her life.

Biographical Writing

6A Eddie Gong

Born:

She was born on 21st April, 1926.

Died:

She died on 8th September, 2022.

Occupation(s):

She was the Queen of Britain.

Notable Quote:

"Good memories are our second chance at happiness"

"I know of no single formula for success."

Childhood & Education: Queen Elizabeth II apparently had little chance of assuming the throne, as her father was a younger son of King George V. But in 1936, her uncle, King Edward VIII, abdicated to marry an American divorcée. As a result, her father became King, and 10-years-old Elizabeth II became the heir presumptive to the throne

**Key Life Events:**

On the 2nd June, 1953, Queen Elizabeth II's formal coronation took place at Westminster Abbey. In the first decade of her reign, Elizabeth settled into her role as queen, developing a close bond with Prime Minister Winston Churchill, weathering a foreign affairs disaster in the Suez Crisis of 1956 and making numerous state trips abroad.

Achievements:

She was the longest-lived and oldest monarch in Britain. The coronation ceremony of Elizabeth II was broadcast live on TV for the first time in British history. She was the only woman in the British royal family who participated in World War II. She was the monarch with the most visits abroad to Britain, with more than 300 visits.

5A Ednah Ip

Children should have to wear school uniform to school.

Do you agree or disagree with the statement above?

I agree to wear uniform to school.

Write three reasons to back up your opinion. Make sure these are detailed and will really persuade the reader to agree with you.

1. The first reason is wearing uniform can represent our school and it is tidy to every one to see. I also have sense of belonging of my school.

2. The second reason is if we go out to present, we will discredit the fame of school if we did not behave properly.

3. The third reason is we will be developed a stronger team spirit when we join the sport day or any event.

5A Ian Tsang

Homework is important.

Do you agree or disagree with the statement above?

In my opinion, I disagree with the statement above.

Write three reasons to back up your opinion. Make sure these are detailed and will really persuade the reader to agree with you.

1. *Are you feeling bad about the family relationship because of homework? Are you very busy because of the homework? Are you feeling exhausted because there are too many homework? Yes- we should tell others, 'Homework disturbs our schedule we should not do homework!'*
2. *First of all, homework makes us feel extremely tired. Therefore we do not have enough energy to do the rest of the important things. For instance, when you have a bunch of homework, you will certainly feel a lot of pressure because you will ask yourself to do the homework perfectly.*
3. *Furthermore, homework destroys the relationship of our family. It is because we ought to spend a lot of time on doing homework so we don't have extra precious time for our family. For example, when you do homework until dinnertime, you cannot have the delicious dinner with your lovely family punctually.*

In addition, homework will affect our emotions. When we have lots and lots of homework on weekends, we cannot have some time to be relaxed and play! Even though we want to release pressure, we have a bunch of homework to do. At that moment, we will absolutely feel grumpy and disappointed.

In conclusion, I think homework is unimportant. So we need to say to the world, 'Stop doing and giving homework now!'

Homework is important.

Do you agree or disagree with the statement above?

Disagree

Write three reasons to back up your opinion. Make sure these are detailed and will really persuade the reader to agree with you.

1. What is homework for? First of all, homework is annoying because we have many other things to do like going to tutorial class, learning musical instruments and wasting our precious childhood time. Homework that our teacher set brings many pressure to us and make us suffer every day. We want freedom! The homework is the devil and drag us into hell and makes us suffer. It makes it hard for us to complete our other important tasks.
2. Second of all, even homework is for education, but we have already learned the knowledge thoroughly while listening to the teacher in class! We are like sheep that are chasing by wolfs! If we don't do our homework on time. We will be scolded loudly by our teacher. Our parents scold us too. This even breaks the relationship with our family !
3. Finally, the last point is, homework is generally given out to ensure that students take time to review and remember what they have learned in lessons. It can help improving a student's general performance and enhancing traits like self-discipline and independent problem solving. Parents are able to see what their children are doing in school, while also helping teachers determine how well the lesson material is being learned. Homework is quite beneficial in when used in the right way and can improve students' performance. However, this well intentioned practice can turn sour if it's not handled in the right way. Studies show that if a student is inundated with too much homework, not only do they get lower scores, but they are more likely to get stressed.

Zoos should be banned and animals should be left to live in the wild.

Do you agree or disagree with the statement above?

Disagree

Write three reasons to back up your opinion. Make sure these are detailed and will really persuade the reader to agree with you.

1. **Zoo should be banned and animals should not be left to live in the wild because people keeping cutting the forest so the wild animals do not have a place to live.**

2. **Besides, the factory's exhaust gas makes some animals sick. A long time later, the animals will die when they smell a lot of exhaust gas !**

3. **Also, some selfish people throw a lot of rubbish in the forest when they are camping and traveling , such as some plastic bags,metal cans,newspaper...It will makes the animals poisoned. They will die after a long time!**

Children should have to wear school uniform to school.

Do you agree or disagree with the statement above?

I disagree it.

Write three reasons to back up your opinion. Make sure these are detailed and will really persuade the reader to agree with you.

1. In Japan, you can wear your own clothes and the orange hat. You
can wear your pajamas if you are brave. You can have a lot of time
to sleep, eat breakfast, even do homework instead of spending time
to wear uniform. Therefore you can save time.
2. You can spend less money to buy school uniform. If the school
uniform is \$300, you need to change your uniform every year, then
you waste at least \$1800 for 6 years in primary. If we do not need to
buy the school uniform, we can save the money!
3. It is difficult to get your suitable school uniform. You go to the store
and try to find your uniform. Then you realize that they even don't have
your size. Therefore, if we don't have this uniforms policy, this won't be
happened.

Zoos should be banned and animals should be left to live in the wild.

Do you agree or disagree with the statement above?

I agree

Write three reasons to back up your opinion. Make sure these are detailed and will really persuade the reader to agree with you.

1. Zoos should be banned and animals should be left to live in the wild as that the animals in the zoo's can't hunt the food but themselves. It will let them loose their animals instincts and their ability to hunt. If they get back to wild, they will not be alive in the natural selection. They will be killed by the hunters or stronger animals.
2. Also, the spaces of the zoos are not enough for the animals. The animals will not be used to this small area. They will be depressed. Furthermore, if they stay in the zoo, they will not remember their original place they lived in the past.
3. At last, it is the worst, animals are trained to perform tricks. Many people like the tricks that the animals do. Their trainers will hurt them.

Homework is important.

Do you agree or disagree with the statement above?

Disagree

Write three reasons to back up your opinion. Make sure these are detailed and will really persuade the reader to agree with you.

1. First,so many homework reduce students ' free time.Since many homework means you need to use more time to finish them.Also,if the homework keeps students for a long time,students will not have enough time to relax themselves.People need to have some leisure time such as watching TV,going to playground,sleeping.Therefore,having many homework will take away students ' rest time.
2. Next,setting homework does little to develop good study skills.Because it is hard to check whether the homework students produce is really their own.Some students have always copied off other ' s homework or got their parents to help them.
3. Also,students have so many things to do like tutoring,going to interest class that they cannot do homework.When they come back home,they still have not finished their homework.Then,they will be so busy and not have enough time to sleep.The next morning,since they do not have enough sleep,they will fall asleep in the lesson,which makes students can ' t learn the knowledge.

Children should have to wear school uniform to school.

Do you agree or disagree with the statement above?

Agree

Write three reasons to back up your opinion. Make sure these are detailed and will really persuade the reader to agree with you.

1. Wearing school uniforms can make primary school students' clothes more decent and neat, so
that they can be more vigilant of their words and deeds, as if wearing school uniforms
presents the whole school.
2. Increase students' sense of belonging to the school and helps avoiding comparisons between
students.If students wear casual clothes,maybe people will feel more natural. However, it lacks a
spirit of unity.
3. Reduce parents' spending on uniform. Parents' salaries may not be much now, and parents may
not be able to afford the casual clothes worn by children every day.

Children should have to wear school uniform to school.

Do you agree or disagree with the statement above?

I disagree with the statement above >:(

Write three reasons to back up your opinion. Make sure these are detailed and will really persuade the reader to agree with you.

1. Are you tired of wearing the uniforms to school? Why can we not wear casual clothes to school? why are the uniform so hard to clean? Why are the uniform so uncomfortable? why are the uniform so expensive? Although uniforms are pretty, they are so uncomfortable. Let me tell you why!
2. First, uniforms are such a waste of money, because parents need to buy new uniforms every year . That means you need to buy six sets of uniforms. The uniforms are about \$100. The poor families can't deal with the pressure of buying their kids, new uniforms every year. That's why I think students should not wear uniforms to school .
3. Another reason is, uniforms are so easy to get dirty but they are so hard to wash . I think students can wear casual clothes, because they are more comfortable. Even though the uniforms can keep the students more concentrated in class, I think wearing casual clothes is much better.

Climate Change Poster

Climate change affects the entire planet. As greenhouse gas emissions continue to rise, global temperatures are increasing at an alarming rate. This leads to extreme weather events and rising sea levels. It is crucial that we arouse students' awareness on climate change. By educating our students about the impacts of climate change and the actions that can be taken to mitigate it. This includes reducing personal carbon footprints and supporting renewable energy sources.

Hurricanes are stronger than before

The polar bears' home were destroyed because of ice-melting

Extreme weather

INTRODUCTION

Our planet is very beautiful. However, our mother earth had suffered from a variety of serious problems. One of them is climate change. What does climate change mean? What is climate change? Climate Change refers to long-term shifts in temperatures and weather patterns. These shifts may be natural, such as through variations in the solar cycle. The reason of Climate Change since the 1800s, human activities have been the main driver of Climate Change; typically because burning fossil fuels such as coal, oil and gas. Because of that, it generates greenhouse emissions, trapping sun's heat.

What can it cause? It can cause problems such as water scarcity, catastrophic storms, intense droughts, etc. What will be affected? It will affect animals like polar bears (because of sea level rising) and coral (because of extreme heat). Also, it will affect the safety, housing, health and work of people.

What should we do? We can save energy at home: washing laundry with cold water to reduce energy lost switching to LED light bulbs hanging things to dry instead of using a dryer We can consider our travel: using more public transport taking fewer flights (because airplanes burn a large amount of fossil fuel)

6A GONG EDDIE

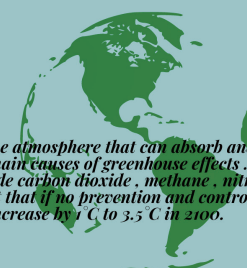

Greenhouse Gases

Introduction

consequences

Greenhouse gases refer to the gases in the atmosphere that can absorb and emit radiation and heat, which are also the main causes of greenhouse effects. The greenhouse gases in the sky mainly include carbon dioxide, methane, nitrogen oxides and fluorinated gases. Ecologists predict that if no prevention and control measures are taken, the surface temperature will increase by 1°C to 3.5°C in 2100.

The consequences of greenhouse gases will lead to the problem of global warming. The glaciers in the Arctic will melt, causing the rise of sea levels, and even flooding in cities such as New York, Shanghai, Taiwan. The melting of glaciers will also cause polar bears to have no place to live and enough food, so polar bears are about to become endangered animals.
